QUAID'S MESSAGE

You know that the importance of education and the right type of education cannot be over-emphasized. Under foreign rule for over a century, in the very nature of things, I regret, sufficient attention has not been paid to the education of our people, and if we are to make any real, speedy and substantial progress, we must earnestly tackle this question and bring our educational policy and program on the lines suited to the genius of our people, consonant with our history and culture, and having regard to the modern conditions and vast developments that have taken place all over the world.

There is no doubt that the future of our State will and must greatly depend upon the type of education and the way in which we bring up our children as the future servants of Pakistan. Education does not merely mean academic education, and even that appears to be of a very poor type. What we have to do is to mobilize our people and build up the character of our future generations. There is immediate and urgent need for training our people in the scientific and technical education in order to build up future economic life, and we should see that our people undertake scientific commerce, trade and particularly, well planned industries. But do not forget that we have to compete with the world, which is moving very fast in this direction.

In short, we have to build up the character of our future generations which means highest sense of honor, integrity, selfless service to the nation, and sense of responsibility, and we have to see that they are fully qualified or equipped to play their part in the various branches of economic life in a manner which will do honor to Pakistan.

— *Quaid-e-Azam Muhammad Ali Jinnah's message at the First National Education Conference, Karachi, 27 Nov-1 Dec 1947*

We are proud to introduce the University of Sargodha as a major public sector University in the province of Punjab, Pakistan. It started its journey in 1929 with the establishment of De'Montmorency College, later renamed as Government College, which was awarded the University Charter in 2002.

With its main campus located in Sargodha city and Agriculture college in its suburb, the University presently has around 22,000 students and 550+ faculty members, including 265+ PhDs, in 25 departments, three institutes, one school, and four constituent colleges that come under the seven faculties of Social Sciences, Arts and Humanities, Science, Agriculture, Pharmacy, Medical and Health Sciences, Engineering and Technology. They are assisted by around 1,500 administrative staff. The University also has 224 affiliated government and private colleges spread across the province.

Sargodha University offers modern teaching and research facilities, including well-equipped classrooms, laboratories, and a vast collection of library material with online access to books and journals. Over a dozen hostels accommodate all female students and a limited number of male students. With an affordable fee structure, the University provides a host of scholarships, internships and business opportunities to the needy and meritorious students. While the Internship Program and Career Development Centre prepare the students for competitive future careers through hands-on training, two E-Rozgaar centres located at the main campus enable them to earn through online freelance entrepreneurship. The Incubation Centre offers the creative students with an opportunity to start productive careers before graduation.

Its main campus, located in the heart of Sargodha city, is green and serene. The University prioritizes the promotion of critical learning and scholarship among its students and young faculty. Each semester, it remains abuzz with a variety of scholarly, co-curricular and sports activities, including seminars and conferences, sports gala and literary festival. The University also runs an FM radio station, offering infotainment and education to students and people of the region.

To ensure productive research, the University has established vibrant institutions, including the Office of Research, Innovation and Commercialization, and Quality Enhancement Cell, which have helped register several international patents for faculty in sciences and agriculture, besides funding research projects and publications and linking academic research with the local economy. The University runs a Citrus Nursery and produces its own mineral water, KhusAab, for faculty, staff and students. It also has a strong tradition of community service, with its Medical Complex and Research Centre offering telemedicine, OPD, pharmacy and diagnostic services to university students and staff as well as the people of the city.

Sargodha University has academic exchange agreements with major Chinese Agriculture Universities, including Lanzhou University, and South China Agriculture University. It also has collaborations with the UN Food and Agriculture Organization, Worldwide Fund for Nature and several other prominent national and institutions of advanced research and education. In 2019, Pakistan's fifth Confucius Institute was established at the University in collaboration with Henan Normal University in China.

The University has an ambitious agenda of quality-centric academic growth in the foreseeable future. It ultimately aims to become a hub of higher education in Pakistan and South Asia.

THE CITY OF EAGLES

Sargodha holds great significance due to its strategic location.

Sargodha means pond of “Godha” or Adobe of the Fighter. Hence, it is not a mere coincidence that the city has made a name for itself for fighting valiantly against the Indian Air Force during the wars of 1965 and 1971, thereby winning the title of the City of Eagles.

CALIFORNIA OF PAKISTAN

Sargodha region is popularly known as the California of Pakistan because of being a hub of cultivation and production of a delicious variety of citrus called *Kinno*.

PAF BASE MUSHAF

Sargodha air base hosts the Headquarters of the Central Air Command.

COMPANY BAGH

A beautiful garden with grassy fields filled with flowers and trees. Jinnah Hall is a historic building located inside the Company Bagh.

KIRANA HILLS

Kirana Hills, or the black mountains, having sacred attributes in ancient Hindu mythology.

Professional education is a formal specialized training about a particular profession in which learners are taught the central concepts, principles, techniques, and practical applications. I feel immense pride to be the part of the Institute of Food Science and Nutrition from undergraduate to Post graduation level. What I am today is only because of this institute's training and the counseling of my teachers. The institute developed my professional credentials through formal course work, attending conferences, and informal learning opportunities situated in practice.

The most important time of life is the time spent at a university. I am proud to be a part of the Department of Earth Sciences, Sargodha University. The department and the University provide all the necessary pieces of training and teachings that are required by any professional organization. I have learned many great things but most importantly the uniformity in dress code at SU. Where everyone dresses the same, students don't worry about socioeconomic judgments when it comes to clothing.

C10	Withdraw	–	W	0	---
Total				3	9.81

* Repeated

GPA = 9.81 ÷ 3 = 3.27

For calculating CGPA, sum total of GPs in an academic year earned in different courses multiplied by respective credit hours of a course and divided by total number of credit hours.

Total (GP x Credit Hours) of all courses

$$CGPA = \frac{\text{Total (GP x Credit Hours) of all courses}}{\text{Total Credit Hours of all courses}}$$

Total grade points in 1st Academic Year (1st, 2nd and summer semester) =

46.14 + 32.22 + 9.81 = 88.17

Total credit hours in 1st Academic Year = 16 + 12 = 28

* Repeated

GPA = 22.56 ÷ 7 = 3.22

For calculating CGPA, sum total of GPs in an academic year earned in different courses multiplied by respective credit hours of a course and divided by total number of credit hours.

Total (GP x Credit Hours) of all courses

$$CGPA = \frac{\text{Total (GP x Credit Hours) of all courses}}{\text{Total Credit Hours of all courses}}$$

Total grade points in 1st Academic Year (1st, 2nd and summer semester) and

2nd Academic Year (3rd, 4th and summer semester)
 = 88.17 + 24.70 + (25.72 - 6.00)** + (22.56 - 9.60)** = 145.55
 Total credit hours in semesters 1st & 2nd Academic Year = 28 + 36 = 64
 (C2 and C3 are repeated so their credit hours shall not be added again)

CGPA = 145.55 / 64 = 2.27 (Promoted)
